

Product Highlights:

- Transfer, store, and share important files at blazing speeds
- Carry photos, music, video, and more anywhere you go
- Distinctive design in a stainless steel case
- Includes Secure II software for complete data protection
- Enhanced for Windows® ReadyBoost™
- Limited lifetime warranty

Capacities:

2GB
4GB
8GB

Industry-Leading Speed in a Distinctive Design

Lexar offers a comprehensive line of high-performance USB flash drives designed with a wide variety of features, capacities, and capabilities. With so many options, it's easy to find the perfect Lexar JumpDrive® USB flash drive to fit your needs and lifestyle.

Lexar JumpDrive Lightning is a premium high-performance USB flash drive that offers lightning-fast data transfer rates, housed in a stylish stainless steel case. The drive also features Secure II software for advanced data protection. Lexar JumpDrive Lightning is available in 2GB, 4GB, and 8GB capacities.

Ultimate Functionality

Lightning-Fast Speed. The sleek style of JumpDrive Lightning is more than just good looks. Beneath its attractive stainless steel exterior lies massive memory capacity and the power of blazing-fast read/write speeds—8GB capable of minimum sustained speeds of 24MB/s read and 18MB/s write—ideal for quickly storing vast amounts of data.*

Advanced Security to Protect Your Data. JumpDrive Lightning comes pre-loaded with advanced security software that lets you protect your data quickly, securely, and easily. You can create multiple password-protected areas called Encrypted Vaults that automatically encrypt your data with on-the-fly 256-bit AES encryption. And the File Shredder feature securely and thoroughly deletes files so that they can never be recovered, giving you peace of mind that your data is secure.

Serious Storage. JumpDrive Lightning is offered in a range of capacities up to 8GB, so it can hold up to 8,000 photos, 130 hours of music, and 1080 minutes of video.* With blazing speed, massive storage capacities, and great features and software, Lexar JumpDrive Lightning is the ideal solution to quickly and easily store and protect all your valuable files, data, and images.

*Based on 8GB capacity. 3-megapixel JPEG. 128-kbps MP3 audio. H264 video + AAC audio (320x240)

Security safeguards, by their nature, are capable of circumvention. Lexar does not guarantee data will be 100% secure from unauthorized access, alteration, or destruction.

Actual usable memory capacity may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes.
