## SDHC Memory Card

Industry leaders Lexar and Kodak have joined forces to deliver a comprehensive selection of memory cards in various formats, speeds, and capacities. These cards deliver the brand quality that Kodak customers have come to expect, teamed with the advanced performance of Lexar memory card technology.

Secure Digital High Capacity (SDHC) memory cards are designed for use with SDHC-enabled devices, including digital cameras, MP3 players, and more. The KODAK SDHC Memory Card offers additional storage, ideal for capturing and securing your most treasured memories.\* The KODAK SDHC Memory Card is available in 4GB, 8GB and 16GB capacities.

### Capture More Memories

**High-Capacity Storage.** The KODAK SDHC Memory Card increases the storage capacity of your SDHC-enabled device, and is perfect for use with an SDHC-enabled digital camera. The KODAK SDHC Memory Card gives you the extra storage capacity to capture that perfect moment.

**Backed by the Digital Assurance Promise.** You can take photos with confidence, knowing the memories you capture are backed by the Digital Assurance Promise. This means the KODAK SDHC Memory Card is compatible with SDHC-enabled digital cameras, as well as the KODAK EASYSHARE System. You'll also enjoy KODAK quality with a limited lifetime warranty, and always have answers with 24-hour customer support from Lexar. The KODAK SDHC Memory Card comes with a free SDHC card reader to be sure you'll have complete compatibility with your USB-enabled host devices.

**The Best of Both Worlds.** Enjoy the combined benefits that KODAK brand quality and Lexar technology deliver. And you can keep it Kodak by adding the KODAK SDHC Memory Card to your existing line-up of other trusted KODAK products, while enjoying the advanced, innovative memory card technology provided by Lexar.
