- Connects directly to the PCIe bus interface to improve performance
- Extra-deep card slot provides added card protection
- No cables needed
- Free, dedicated customer support
- Two-year limited warranty

Portable, High-Speed Reader for Professional Photographers

Lexar offers high-performance Professional UDMA CompactFlash® readers designed to help professional photographers and advanced photo enthusiasts optimize their post-production workflow speed. These readers are designed for use with high-speed cards, and provide incredibly fast download speeds when paired with a UDMA card.

Designed for photographers on the go, the Lexar® Professional ExpressCard™ CompactFlash (CF) Reader offers portable convenience by connecting easily through your laptop's ExpressCard slot. The reader is compatible with CF and UDMA CF memory cards, and it leverages UDMA 6 technology to deliver impressive, industry-leading transfer speeds—up to 133MB/s (886x)*.

Designed for Ultimate Performance

Save Time and Drastically Improve Workflow. Designed to leverage the industry-leading speed of the Lexar Professional 600x CF card or other high-speed UDMA CF card, the Lexar Professional ExpressCard CompactFlash Reader provides blazing fast transfer speeds from card to computer—up to a blistering 133MB per second. Simply plug it into the ExpressCard slot of your laptop and the reader connects directly to the high-speed PCIe bus interface for enhanced performance.

Convenient Portability for Photographers on the Go. The Lexar Professional ExpressCard CompactFlash Reader is designed for photographers who think outside the studio. This convenient and portable reader works with your MacBook® Pro computer or PC notebook with a 54mm or 34mm ExpressCard slot, making it an excellent choice for photographers on the go. The reader also boasts an extra-deep card slot for less card exposure, which helps protect your card against bumps, dislodging, and physical damage. The design also provides card stability and prevents any shifting during reading.

Enhance Your Business. When used in conjunction with a UDMA CF card, the reader's high-speed performance allows you to drastically accelerate transfer speeds from card to computer—saving you time and money. The reader also comes with free, dedicated customer support and is backed by a two-year limited warranty. Designed with professional photographers in mind, the Lexar Professional ExpressCard CompactFlash Reader delivers ultimate high-speed performance, so you can get back to the business of photography.

Lexar. When Memory Matters.™

*Highest transfer speeds achieved when paired with a UDMA memory card.
