Capture Life in Action with Full-HD Video Memory

Lexar offers a comprehensive line of award-winning memory cards in various speeds, formats, and capacities. With so many options, it's easy to find the right Lexar® memory card to fit your needs and lifestyle.

The Lexar Secure Digital High Capacity (SDHC™) Full-HD Video memory card is a high-performance, high-capacity card designed for capturing stunning, high-definition video at 1080 resolution with your SDHC-compatible digital camcorder or point-and-shoot camera. The card is available in 4GB, 8GB, and 16GB capacities.

High-Performance, High-Capacity Solution

Maximize Your Video-Taking Experience. Created specifically for video enthusiasts, the high-performance Lexar SDHC Full-HD Video memory card lets you fully leverage the video capabilities of your SDHC-compatible digital camcorder or point-and-shoot digital camera. Available in large capacity options that allow you to record up to 6 hours of full-HD video (16GB), the card gives you the ability to reliably capture and store more of the videos that matter—and the freedom to do it all on a single card.

Quickly Transfer and Share Videos with Ease. Not only does the Lexar SDHC Full-HD Video memory card reliably capture your favorite moments with family and friends, but it also provides high-speed transfer of your video files from your card to computer for backup or sharing on popular online social networks like the YouTube™ website. And quick transfer means you spend less time in front of the computer so you can get back to capturing more video.

Includes Valuable Adobe Software Offers. The Lexar SDHC Full-HD Video memory card includes exclusive, money-saving offers on leading Adobe® software. You'll enjoy free, 30-day trials of the latest versions of Adobe® Premiere® Elements and Adobe® Photoshop® Elements software, with \$30 off each full version.*

Capture Life in Action. Looking to capture the fast-action excitement of the kids' sporting events? Want to preserve fun moments with family and friends? Or simply want to catch impromptu moments for posting on your favorite sharing sites? The card gives you the performance, capacity, and reliability to capture it all, and allows you to quickly transfer those files to your PC or the Web, making the Lexar SDHC Full-HD Video memory card a smart, high-performance solution for all your video-capture needs.

Video Memory Card Storage Comparisons

| Approximate | Device Settings | 4GB | 8GB | 16GB |
|---------------------------|-----------------|-----|-----|------|
| Minutes of Recording Time | 5 Mbps (EP) | 90 | 180 | 360 |
| | 10 Mbps (LP) | 45 | 90 | 180 |
| | 15 Mbps (SP) | 30 | 60 | 120 |

The minutes of video in this chart are derived based on the stated average video transfer rate shown in the chart and the stated memory capacity. Actual number of minutes will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software. Actual usable memory capacity may vary. 1GB equals 1 billion bytes.

WARNING: Secure Digital High Capacity (SDHC) memory cards are only compatible with devices that support the SDHC format.

*Software offerings may vary depending on product ship date. Please check product packaging for included software offerings.

Actual usable memory capacity may vary. 1GB equals 1 billion bytes.
